

2020 Santa Clara Election

KNOW THE FACTS

What The Establishment Politicians Don't Want Us To Know About Santa Clara

Politician on Santa Clara City Council
Kathy Watanabe

Careless in analysis of stadium deal. After working with 49ers PAC to bring stadium. Couldn't manage the stadium & did little to manage significant traffic and parking issues

Supported ballot measures and a CVRA lawsuit that reduces minority representation and already spent >\$4 Million of taxpayer money

Votes in lock-step with the council majority bloc to support developers, vendors, decisions not in best interest of residents and future. Doesn't push for more community benefits

Fails to push developers for community benefits and affordable housing. Voted to reduce parking for developers at the cost of neighborhood inconvenience

Accepted the special interest group endorsements to support negative false campaign ads. Made many deals with developers, and beholden to PACs, Unions, POA, and Developers.

Ballot Statements: Addition of 1 Bathroom, Extending Library hours on Sundays. No solution to airport noise, other noise concerns, RV Issues not improved, street racing continues.

A Community Leader, Engineer, Businessperson
Harbir k Bhatia

Focuses on quality of life and understands implementation of complex projects. Understands forecasting, project planning, due diligence, analysis risk management and reducing impact

Opposed Measure C and speaks publicly in favor of voting reform in Santa Clara for fair elections and inclusive representation. Fight for civil rights.

Not a career politician and considers various sources of information and analyzes impacts. Worked briefly as a Community Benefits Director, knows how to get more benefit for residents and community. Independent thinker and a leader.

Fought for additional affordable housing, helping get a total of 120+ affordable units in the Hunter/Storm project, among others. I have strong experience in negotiating and analyzing the benefits to demand more for the public.

Has never taken any money from any special interest groups, corporations, businesses, 49ers, developers, etc. Is an outsider and not beholden to anyone because she hasn't ever made any deals for the City.

Diverse and Proven Experience: Technology Management, Business, Community, Masters in Engineering Management from S.C.U. Mobilized community to provide COVID relief to hospitals, schools, residents, locally and nationally, ...and more from over 30 years of community service

AFFECT BY MY OPPONENT'S VOTES & ACTIONS / INACTIONS

Significant Increase of Developments in Northside Without an Overall Plan

15,000 NEW HOUSING UNITS = 35,000 PEOPLE - HUGE HOUSING DEVELOPMENT INCREASE

35,000 NEW residents expected in Northside from 15,000 new housing units currently planned for Northside, Council District 1. This does NOT include the ones planned for the future.

NO COMPREHENSIVE NORTHSIDE AREA PLAN

For Growth, New Developments, Stadium, Convention Center, Great America, Companies, And All The Existing Residents

There is no Areawide Plan for Northside that considers the impact and necessary improvements on infrastructure, traffic, transportation, services, schools etc. Consider the impact of all that is and will be in District 1: City Place – entertainment district, the Stadium, Convention Center, Great America Amusement Park, the 15,000 new housing units, existing residents. Imagine the parking and traffic issues now and when the new units are added.

No Community Services Plan For Northside
No Retail Plan For Northside
No School Land Use Plan for Northside

No Public Transportation Plan for Northside
No Traffic Management Plan For Northside
No Infrastructure Plan For Northside

VOTED TO REDUCE 328 PARKING SPOTS FROM CITY PLACE PROJECT

Huge traffic and parking implication for the residents. Community benefit lost + traffic/ parking burden increased on nearby neighborhood by approving the Related Co request to reduce 328 parking spots from the City Place, Phase 1 of the project. Located in front of the stadium in District 1. Developer Saved \$16M but NO traffic mitigation or community benefits provided for the residents in return. Huge impact on the residents with more parking issues for District 1.

\$34M DEFICIT WITH ONLY \$80M IN RESERVES

We have been running a deficit for few years, and now it's worsened by COVID. The council majority bloc cut multiple revenue streams out. VERY poor forecasting, planning and risk management.

\$28M TO BE PAID BY RESIDENTS FOR INCREASE IN GARBAGE RATE

Unprecedented increase of Garbage rates by 28% - 68% per household (based on the bin size). City signed a no-bid contract before knowing the rates. Costing the residents \$1.9 M extra per year for 15 Years. Residents would have to pay a combined extra \$28M.

\$\$\$\$ LOSS OF RENT REVENUE-- CITY LAND GIVEN TO DEVELOPER RELATED FOR \$0 UNTIL THE PROJECT STARTS:

Revenue lost on rent from Related Co on ~240 acres. The land was leased for free to Related Co until City Place project is built. The project is already years behind. The City gave away land for free that was previously generating revenue.

>\$4M CVRA LEGAL FEES

Judge ruled against former election model and forced 6 districts. 2018 Proved the 6 district – 1 member model worked. Incumbent tried to reverse and change with Measure C, but it failed, I advocated against it. Spent over \$4M already appealing districts even though residents wish to keep it.

\$710K/YR CITY MANAGER ANNUAL SALARY & BENEFITS PACKAGE

Council majority bloc including, the incumbent, Kathy W, approved the City Manager package (City is also responsible for future pensions based on this salary). Top salary and benefits in the state of California, even more than much larger cities with more resources.

76% OF CITY GENERAL FUND BUDGET BEING SPENT EMPLOYEE SALARIES AND BENEFITS

The top executives = \$3.4M /yr. Huge unfunded pension liability for the city and residents. Leaves very little for services and funding for the residents and the City. In comparison Sunnyvale is 60%.

\$340M OF LOAN LEFT TO PAY OFF THE STADIUM'S TOTAL LOAN +\$1.27B

If we don't host events or use the stadium ==> it will cost us over \$10,000/avg. per household to pay it off.

STADIUM BROUGHT BY KATHY W, MAYOR LISA GILLMOR, & OTHERS. IMPACTING THE QUALITY OF LIFE OF NORTHSIDE RESIDENTS

MEASURE J - Kathy and Mayor Lisa Gillmor worked with 49ers PAC, spent \$4M to give false promises to the residents, against the wishes of the residents they brought the stadium to Santa Clara. But they could NOT manage the relationship and prevent the impact on the residents. Instead wasting money on legal fees with no progress.

\$\$\$ REVENUE LOST BY THE STADIUM AUTHORITY

By not managing the stadium properly. The Council members are Stadium Authority members. Continuous legal fees due because they made a weak contract and can't manage them

~\$130M PER YR LOSS BY REMOVAL OF VISITORS BUREAU IN 2018

\$130M/Yr Economic benefit lost per year by the City and businesses by cutting Visitors Bureau (City's marketing arm) in June 2018. Cut without another service provider. Consultants hired in 2018 to identify a new provider by 2019. Yet consultant contracts continue to be extended repeatedly ... Have already paid \$500k. Still NO Visitors Bureau today.

DON'T PUT OUR FUTURE AT RISK! CHANGE THE CURRENT COUNCIL.

Working for the residents !

Harbir has been about community service ('seva') for over 30years. She fights for the people, small businesses, and community by leveraging her skills and relationships at all levels. She is a technologist, entrepreneur, community organizer, community benefits advocate, and has a Masters in Engineering from SCU. She serves on many local, state, and national organizations, such as the Santa Clara Library Foundation Board and Past President, joined after helping bring the Northside Library to provide equitable access; a Cultural Commissioner to enrich community with arts and diverse programming; the Chamber of Commerce Board to help create a thriving economy and jobs, Santa Clara Rotary Club Board to help serve the youth and seniors, Joint Venture SV to understand the trends and future, and much more. Read the amazing stories about her leadership during COVID to support front line workers, vulnerable residents, and others by mobilizing volunteers and creating jobs. Our city has a small town feel but big city problems. We face a new reality that requires a more qualified, collaborative, innovative, analytical and proactive representative with community benefit planning experience for a sustainable and brighter future for all. Harbir is that person and the best candidate for City Council.

Please vote for Harbir K Bhatia for District 1!
